

# e-Com/IT-kommittén

## Internationell standardisering

Kerstin Stenberg

2007-01-25

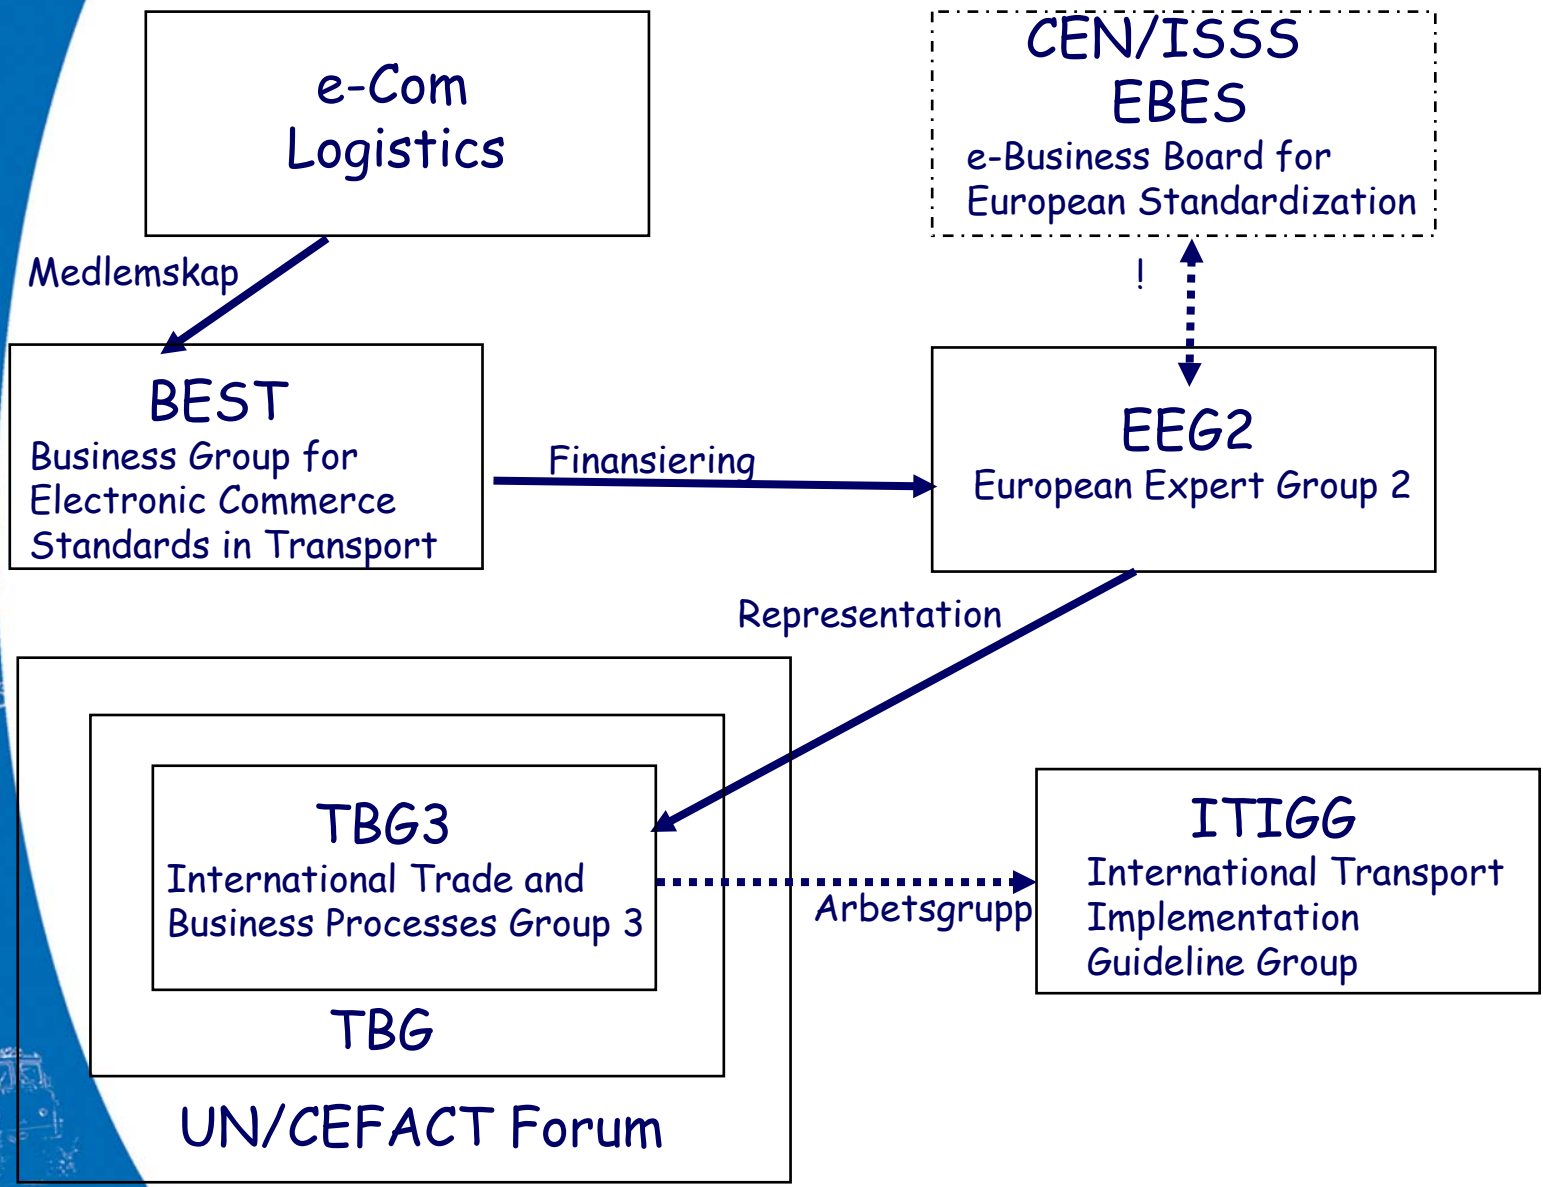

## Arbete sker på olika håll

- FIATA - Landtransporter
- IATA - Flyg
- SMDG - Sjö
- UIC/RAILDATA - Järnväg
  
- BEST/EEG2 - Electronic Commerce Standards in Transport
- Företagsspecifikt arbete

# Sveriges Transportindustriförbund/e-Com Logistics Arbetar i BEST/EEG

# Medlemsföretagen deltar i internationellt arbete inom Sjö

## ■ SMDG

- SMDG develops and promotes UN/EDIFACT EDI-messages for the Maritime Industry and is an official Pan European User Group, recognised by the UN/EDIFACT Board
- New topics include presentations and discussions about the application of new technology in the Maritime Industry, like RFID, electronic seals and container tags, Automatic gate systems, etc.

[www.smdg.org](http://www.smdg.org)

# Medlemsföretagen deltar i internationellt arbete inom RAIL

## ■ UIC/Raildata

- RAILDATA is international organisation of European Cargo Railway Undertakings, established as special group of the [International Union of Railways](#) (UIC).
- RAILDATA's objectives are development, operation and maintenance of international freight information systems on behalf of its members and other users with maximal synergy and lowest costs based on common standard.

[www.raildata.cz](http://www.raildata.cz)

## ■ TAF/TSI – EU Direktiv jan 2006

- The TAF TSI is a functional specification of various applications for freight transport supported by a messaging architecture for the exchange of the relevant information between the organisations in the Rail transport chain (primarily Railway Undertakings and Infrastructure Managers).

<http://www.uic.asso.fr/baseinfo/projet/projet.php?id=15>

# Medlemsföretagen deltar i internationellt arbete inom AIR

- IATA - the Air Transport Industry's side
  - IATA has developed the commercial **standards** that built a global industry. Today, IATA's mission is to **represent, lead and serve the airline industry.**

[www1.iata.org](http://www1.iata.org)

## Medlemsföretagen deltar i internationellt arbete

- Flera av de tidigare 'stora' transport/logistik företagen i Sverige ingår i dag i globala koncernen där standardisering sker på globalt plan.
- T.ex. DHL fd ASG, Schenker/Stinnes fd Bilspedition samt DSV fd Fraktarna och NTS
